EDUCATION

CTU in Prague, Master's degree
2024 - present
Open informatics, software engineering minor

CTU in Prague, Bachelor's degree
2020 - 2024
Software engineering

PROJECTS

prasokod.cz
2025 - present
prasokod.cz is a revival of the well-known bad code sharing website hovnokod.cz, which had been inactive for some time and lacked support for newer programming languages. Both hovnokod.cz and prasokod.cz are aimed at Czech and Slovak developers, offering a humorous platform to share and view poorly written code.
